LEAD YOUR INDUSTRY

WITH KANGEN WATER®

In a competitive healthcare environment, every edge counts. Kangen Water® is not just a health product; it's a strategic asset for medical practitioners aiming to elevate their practice and patient care. Here's how Kangen Water® can directly benefit your practice:

Lead with Innovation:

Integrate Kangen Water® to distinguish your practice with state-of-the-art hydration technology, standing out in a competitive healthcare landscape.

Boost Treatment Results:

Enhance treatments with Kangen Water®, improving patient recovery and health outcomes, which drives satisfaction and practice growth.

Enhance Patient Loyalty:

Offering Kangen Water® meets the growing demand for holistic solutions, enhancing patient satisfaction and boosting referrals.

Cut Operational Costs:

Kangen Water® reduces reliance on medications, lowering side effects and operational expenses, streamlining patient care.

Leverage Credible Endorsements:

Gain trust and attract new patients with endorsements from recognised experts like Shan Stratton, enhancing your practice's credibility.

KANGEN WATER® REVOLUTIONIZING HEALTH & WELLNESS

Medical practitioners across various specialties are turning to Kangen Water® as a partner in enhancing patient wellness.

Healthcare professionals are constantly seeking effective, innovative approaches to enhance their patients' health, and Kangen Water® has proven to be a valuable ally.

From general practitioners to specialists in holistic medicine, the medical community is experiencing firsthand the multitude of benefits that Kangen Water® offers—benefits that are changing lives and reshaping patient care practices.

If you are seeking to:

- Significantly enhance patient recovery rates
- Improve the efficacy of muscular and cellular rehabilitation
- Reduce the incidence of muscle-related injuries in patients
- Alleviate chronic muscle soreness and fatigue

Kangen Water® is the ideal addition to your health & lifestyle!

UNVEILING A NEW STANDARD IN HEALTHCARE

Kangen Water®, with its unique ionized properties, goes beyond basic hydration. It penetrates cells more effectively than regular water, enhancing cellular hydration and overall health.

Medical practitioners who recommend Kangen Water® observe significant improvements in patients suffering from chronic dehydration and related conditions. This advanced level of hydration supports cellular functions and aids in the overall recovery and vitality of patients.

Alkalinity: A Pathway to Disease Prevention

The modern diet often leads to increased body acidity, which can disrupt overall health. Kangen Water®, known for its alkaline properties, helps balance the body's pH levels, offering a natural solution to combat acidity-related ailments.

Medical professionals incorporating Kangen Water® into their treatment plans note a decrease in symptoms associated with acidity, such as inflammation and gastric discomfort, leading to better patient health outcomes.

Enhanced Detoxification & Antioxidant Protection

Kangen Water® is not only hydrating but also rich in antioxidants, which play a crucial role in combating oxidative stress—a key factor in aging and many health disorders.

Practitioners find that their patients experience enhanced detoxification and improved overall health when regularly consuming Kangen Water®. The water's properties support natural detox pathways, helping to cleanse the body of toxins and promote longevity.

REVOLUTIONIZING MEDICAL PRACTICES WITH ADVANCED HYDRATION

By hydrating patients with Kangen Water®, medical professionals have observed accelerated recovery rates, notably in post-operative settings where proper hydration is crucial for healing and rehabilitation.

This enhanced hydration efficiency helps expedite the flushing of metabolic acids, such as lactic and pyruvic acid, from the tissues, reducing the incidence of muscle cramping and discomfort often experienced by patients during recovery.

The effectiveness of Kangen Water® is supported by extensive research and professional testimonials. Medical practitioners value the water's ability to maintain an optimal pH balance in the body, crucial for preventing diseases associated with acidity.

SHAN STRATTON, A LEADING SPORTS NUTRITIONIST FOR THE NBA, NFL, MLB, PGA, LPGA, NASCAR, NHL, NY YANKEES, AZ DIAMONDBACKS, HOUSTON ROCKETS AND LA DODGERS, PRAISES KANGEN WATER® FOR BRIDGING THE GAP IN ATHLETES' HYDRATION AND OVERALL HEALTH.

Shan is known internationally for his training sessions and corporate speaking events as a nutritionist, a sports supplementation specialist, and a renowned motivational speaker. **He has worked with countless famous athletes like Kurt Warner, Maria Sharapova, Reggie Jackson, Cynthia Cooper and on and on.** After promoting and advising the use of high-quality supplements, enzymes, and probiotics to the athletic community for over 15 years, Shan states:

“Drinking Kangen Water® is the missing link to overall health and performance for athletes.”

Shan researched Enagic's Kangen Water®, even trying it himself before endorsing the Kangen water ionizer. Shan met with Enagic's executive staff and scientists, and personally investigated the integrity of both the company and the products. The reason for this is that he has tremendous integrity at stake with his involvement with so many high powered sports figures and coaches internationally.

Shan is committed to the mission of changing the “sick care” of America and the world over to a true Health & Wellness Care system. He is passionate about being an International speaker helping educate the world about the tremendous health benefits of drinking alkalized, antioxidant-charged, super-hydrating Kangen Water® from the only company that has the seal of approval from the Japanese medical community.

Dr. Susan Lark, an authority in integrative medicine, discusses in her book, "The Chemistry of Success", the vital role of acid/alkaline balance in achieving peak physical and mental performance.

She points out that the antioxidant properties of Kangen Water®, produced through its unique electrolysis process, are instrumental in reducing oxidative stress, thereby enhancing the body's healing processes and preventing cellular damage.

Dave S. from Melbourne Beach, FL, a patient suffering from chronic muscle soreness and joint stiffness, reported significant relief after just one day of using Kangen Water®.

JILLIAN MICHAELS

Jillian Michaels, a renowned personal trainer & fitness expert on NBN's 'The Biggest Loser' recently endorsed Kangen Water® from Enagic on Los Angeles KFI AM Radio Talk Show as the special ionized alkaline, micro-clustered water people should be drinking for weight loss and getting their bodies back into balance.

TAMARA JANE

Hydration is essential for health, especially when considering that the body is 70% water by weight and 99% water by molecular volume. Chiropractor and holistic nutritionist Tamara Jane has observed this of people drinking & bathing in the right water firsthand in her practice. She noticed that many of her clients were chronically dehydrated despite consuming ample water, whether it was from tap, bottled or filtered sources. Those who responded most positively and rapidly to chiropractic care and nutrition advice all shared a common factor, they were drinking Kangen Water.

Intrigued by this pattern, Tamara began recommending Kangen Water to her clients, focusing on its key properties: enhanced hydration, reduced oxidative stress, and improved cellular balance. The results were compelling. One of the standout benefits of Kangen Water is its molecular hydrogen content, which is recognized as a potent antioxidant. This helps modulate stress and bring the body back into balance, and importantly, it is the only antioxidant that can cross the blood-brain barrier. For a chiropractor working with the nervous system and cerebrospinal fluid, ensuring that water and nutrients reach the brain and efficiently flush out toxins is vital.

Tamara also found that Kangen Water plays a crucial role in cellular detoxification. The body's ability to expel toxins depends on maintaining the correct electrical charge potential across cell membranes. Many clients showed an imbalance between intracellular and extracellular fluids, which impeded detoxification. Kangen Water, with its unique charge, helped restore the cells' electrical potential, enabling faster detoxification and overall healing.

In Tamara's experience, Kangen Water is the best water for fulfilling people's water requirement.

Rob Woodall, a respected coach and college director with over a decade in athletic training, initially skeptical about the benefits of specialized water, became a staunch advocate after witnessing the significant impact of Kangen Water® on his athletes' performance and recovery. His experience underscores the potential of Kangen Water® in clinical practices, particularly in physical therapy and sports medicine, where effective recovery is paramount.

Here's What Coach & College Director Rob Woodall Has To Say About Kangen Water:

"In my 12 years serving as a certified athletic trainer and strength coach, I have never seen a product provide the type of results that we experienced while using this product. I have always been a skeptic to these types of "just drink the water and you'll feel great" claims".

We had seven athletes who we classified as "crampers"(people who regularly suffer from muscle cramping). We started the week before our game in mid-September and continued for the rest of the season, and there were no cramping episodes from any of the seven during this time. We went through the whole game and not one athlete cramped. Several of the opposing teams' players go down late in a close game due to cramps, and we did experience cramping episodes from athletes not on the program.

They all loved it because they felt like they could drink and drink and never feel bloated. I've had several athletes say they feel "stronger", "more athletic" or "lighter on their feet".

THE FUTURE OF PATIENT CARE IS HERE

The adoption of Kangen Water® in medical practices is more than just hype—it's a revolution in patient care backed by numerous scientists and medical practitioners worldwide.

Practitioners are using Kangen Water® to enhance a wide array of treatments, witnessing improvements in patient wellness that conventional water simply cannot match. Whether it's supporting chronic disease management or promoting everyday health, it's clear that Kangen Water® is becoming a cornerstone in effective medical treatment.

For more detailed information on how Kangen Water® can be integrated into your medical treatments or to hear more from medical professionals who are already seeing the benefits, **contact us** today and join the health revolution that's redefining patient care with every drop.
